Omnique Reports

Additional details are now captured and sent to Omnique. Users can view the service contract, flags, and contract details for vehicle data.

New AutoPay Reports Dashboard is Available

A new report has been designed to create dashboards for reviewing nightly autopay processing providing the dealer a report of all the processed payments and status. Ideally everything will post successfully but should an error occur, you can review it and contact support. Also, if most payments are pending when starting the workday, you can contact support for status.

AutoPay Processing ▼			Refreshing in: 9:54 ⚙		
Today's AutoPays			Monthly AutoPays
